I'm an Editor and Assistant Editor working on documentaries and drama for BBC, ITV, Channel 4, and more. As an Assistant Editor, I've assisted editors with their projects, ensuring the edits run smoothly, communicating with the production crew, assembling scenes, track laying music and sound effects, and turning over assets to the online team. I primarily work with Avid and Premiere Pro, and am a full member of British Film Editors (BFE). I'm motivated, hard working, creative, personable and an asset to any team I join.
